NEW YORK, May 1.—The inability of
Keene to meet contracts did not affect
markets to-day. Keene this morning
refused to see any person. It is believed
that Keene will pay 100 cents on the dol-
lar. He had several offers of assistance
to-day, but refused.

The American Hog.

BERLIN, May 1.—Prof. Virchow says:
"Trichinosis in Germany, caused by eat-
ing imported American pork, is confined
to a few isolated cases at Bremen." He
points out the dangers connected with
rearing pigs and urges the compulsory
examination of American pork.

The Pittsburg Meeting Postponed.

PITTSBURG, May 1.—The meeting of
stockholders of the Pittsburg, Fort
Wayne and Chicago Railroad company,
called for to-day, to consider the propo-
sition to issue mortgage bonds to the
amount of \$12,000,000, to take up the
stock heretofore issued, known as better-
ment stock has been postponed until the
21st inst., when the annual meeting will
be held.

The Dynamiters in Toronto.

TORONTO, Ontario, May 1.—About 2.30
o'clock yesterday Willie MacDonnell,
the twelve-year-old son of the care-taker
of the east wing of the parliament build-
ings, while playing around the west wing,
saw a roll of something inside a ventila-
tor under the crown land department.
He instantly took it out and handed it to
an official standing near, when it was
found to be a dynamite cartridge of the
most powerful kind. A rigid search
about the place revealed two other car-
tridges of the same kind, each of which
weighed nearly one pound, and also
clocks and fuse ready for use. A num-
ber of government employes and officials
sleep in the building. The excitement
is intense. There is no clue.

ALL IN FUN.

A later dispatch from Toronto says:
The Dynamite scare is abated. Public
opinion of the affair is that it was either
the result of a practical joke or else the
cartridges were placed in parliament
building by some one anxious for a job
of watchman. The fact that the wires
attached to the cartridges were lying in
such position that they could not help
being seen by the people passing gives
color to either of the theories. Extra
guards have been placed around the
buildings and the government house.

Congressional.

WASHINGTON, May 1.—The senate
proceeded in the consideration of the
bills on the calendar under the five min-
ute rule. The first bill was that to re-
lease the members of the original Fitz
John Porter court martial from obliga-
tion of secrecy so far as relates to the
votes of the members. Logan said that
congress had no power to grant a re-
lease. Garland moved an indefinite
postponement of the bill, which was
agreed to without opposition.

NOTICE.

The morning hour was dispensed
with.

Morrison moved that the house go
into a committee of the whole on the

tariff bill and, pending that, he moved
that all general debate on the bill be
closed at 4 o'clock on Tuesday next.
Bandal had no objection to the closing
of the debate, but hoped he would be ac-
corded an hour on Tuesday. McKendry
gave notice that at the conclusion of the
general debate a motion would be made
to strike out the enacting clause.
It was agreed that private business
should be suspended to-morrow and the
day devoted to the tariff debate. Mor-
rison's motion of limitation was agreed
to and the house went into a committee
of the whole.

Trouble in Spain.

MADRID, May 1.—The precautions
taken by the government indicate a more
serious disturbance than apprehended.
The government has addressed a remon-
strance to Minister Perry in regard to
the lax supervision exercised by the
French over Spanish insurgents interned
in France.

Another Victim of the Mob.

CINCINNATI, May 1.—About 11 o'clock
this morning, while five workmen were
removing the brick from the inner wall
of the court house the wall suddenly
fell, and Frank Stezzelman was instantly
killed. The others escaped without in-
jury.

Sullivan Knocked Out.

CINCINNATI, May 1.—Mayor Stephens
telegraphed this morning from Vin-
conne, Ind., to his secretary to permit
no sparring or slugging matches on Sun-
day. This prohibits the exhibit of John
L. Sullivan.

Kellogg Acquitted.

WASHINGTON, May 1.—Judge Wylie
sustained the motion to exclude the tes-
timony of Price in the Kellogg case,
holding that the offence was barred by
the statute of limitation. The jury gave
a verdict of not guilty.

OUR WATER WORKS.

The Annual Report of the Trustees Makes
a Splendid Showing--The Cost of the
Water Works up to Date--The
Receipts and Other In-
teresting In-
formation.

The fifth annual report of the water
works department, for the year ending
yesterday, will be the most satisfactory
one in the history of the water works.
Close and careful management, increased
efficiency and reduced expenditures, are
characteristics of the operations of the
past year, and we believe that in every
department our water works are unex-
celled anywhere in the country.

The annual report, from which we ex-
tract a few items of general interest to
our readers, shows that the trustees have
received from all sources from 1879 to
date \$331,000, and have expended dur-
ing the same period for all purposes
\$326,000, leaving \$5,000 surplus in their
hands.

The net cost of constructing the works
to the present time has been \$287,000.
To this is to be added \$24,000 for re-
servoir land. Extensions have been made,
in addition to the original plant, amount-
ing to \$13,600.

The running expenses last year were
\$8,890, and the revenue was \$20,000, or
\$11,000 more than the cost of operating.
The interest on the water works bonds
is nearly \$16,000 per annum, but as this
is paid direct by the city, it does not
figure in the present report. It may be
said here, however, that although it ap-
pears that the revenue of the works lacks
\$5,000 of paying both running expenses
and interest on the bonds, yet when it is
remembered that the water works de-
partment is not given credit for service
rendered the city in the way of fire
protection, reduction in the cost of main-
taining fire cisterns and the fire
department, water for public buildings,
schools, flushing sewers, etc., which in
the case of a private company would
cost the city probably \$20,000 per an-
num, we can readily see how the water
works are a paying investment on the
part of the city and a blessing to the
people generally.

The permits for tapping the mains
now number 1,138, and the number of
actual paying consumers is over 1,000,
an increase of 150 during the year.
As an evidence of the economical man-
agement of the works during the year, it
may be stated that while the revenue
was increased \$5,000, the expenses were
reduced \$100.

During the year 450,000 gallons of
water was pumped; the amount pumped
the previous year was 350,000,000.
The number of regular employes is
six, under the control of three trustees,
the latter having received from the be-
ginning of the works up to date the mu-
nificent sum of \$1,821 for their services.

Joe Clark caught a ten pound pickerel
in the St. Joe river yesterday.

Another Jesse James Gang Turns up in
Kansas and Attempts to
Raid a Bank.

A Condensed but Complete Record of
the Events of a Busy and
Eventful Day.

A Bad Crowd.

CHARLESTON, W. Va., May 1.—Spur-
lock, the member of the gang whose
atrocities resulted in the lynching of
the two Hills at St. Albans and who was
safely landed in jail by the officer, after
walking twelve miles made a
statement which was similar to
the confession of the Hill boys,
but he adds he did part of the shooting.
The band is composed of over one hun-
dred members, who are sworn to protect
each other. He says he and the Hills
have been operating for two years and
have killed four men and wounded sev-
eral. He has a wife and children, and
his home was the meeting place of the
band. The mob was very orderly, and
sent for a minister who conducted reli-
gious services. The two begged for
mercy.

The Jesse James Style.

HARPER, Kan., May 1.—News was re-
ceived here yesterday of the attempted
robbing of the Medicine Valley bank, of
Yacenne Lodge, fifteen miles west of
here, by four men. They rode up to
the bank and two went in and demanded
the money. E. W. Payne, the president,
and George Geppert, the cashier, were
present, and refused to comply with the
demand, when the robbers opened fire,
killing the cashier and fatally wounding
the president. The citizens heard the
shots and the bandits were compelled to
leave without the money. A party is in
pursuit.

The Methodist Conference.

PHILADELPHIA, May 1.—The general
conference of the Methodist church is
largely attended. Bishop Simpson, Drs.
Vernon, of Italy; Taylor, of Leadington,
Ky.; Bull, of Ohio; and Monroe, partici-
pated in the opening exercises. Bishop
Bowman is the chairman. Addresses
of welcome were made by Dr. Longaker
and Governor Patterson.

Bishop Harris presented, in behalf
of the descendants of Benson, the com-
mentator of the bible used by Wesley.
A committee was appointed to prepare a
response.

A New Gold Field.

KINGSTON, Ontario, May 1.—Gold in
large quantities has been discovered in
the township of Kaladara, forty miles
from this city. Considerable dust has
been brought here.

publican state convention organized with
W. H. Perkins as temporary chairman.

Chinese ambassador, leaves for Paris to-
day to open negotiations with Ferry.

A cablegram from Buenos Ayres on

prevailing. Thirteen centimeters of rain
have fallen; more than known for four-
teen years. A number of houses and
walls have fallen, and four children have
been killed. Rivers have overflowed
their banks, and many villages are inun-
dated.

A reporter of the Associated Press had
an interview with the president of the
Elum company, at Chicago, of whose
make were the cartridges found in the
government building at Toronto, and he
states the cartridges are sold everywhere
in the United States and Canada, and
are used for blowing out tree stumps.
They require a cap or battery for their
explosion and would not create as great
damage as might be supposed.

A mob took Scott Hill and Brown Hill,
two of the robbers who shot and killed
Albert Woods, and mortally wounded A.
J. Woods, near St. Albans, Virginia, on
Monday night last, and hanged them to
an elm tree just west of the town Wed-

member of the gang who have been do-
ing so much robbery and shooting lately.
They all confess the crime of Monday
night.

THIS morning the Gazette appeared in a new dress, looking bright and prosperous. Its prosperity is a source of pleasure to THE SENTINEL.

A STORY is told of a lawyer in Athens, Ga., who was employed to defend in a suit against a narrow gauge railroad, and who took the road as his fee.

IT is in order for some one to explain what the Cincinnati Enquirer means when it says that "Indiana republicans have evidently taken too much quinine."

THE supreme court of Ohio will hear the arguments in the somewhat celebrated Scott law cases on the 27th, at which time the validity of the law will be settled. It is time.

THE indorsement of the democrats of Massachusetts of General Butler for the presidency puts him in the race and his name will be heard in the national convention. Mr. Butler is not easily downed.

ACQUITTAL in star route cases is regarded as a matter of course. Therefore, it was considered wise to have Kellogg's trial over so that he might go to Chicago as clean as when he left, for instance, as the acquitted Dorsey.

LARGE numbers of Canadians are emigrating to this country, many of whom are seeking homes in the west. Canada is powerless to stop the exodus and the first thing we know England will be accusing Americans of a conspiracy, or else charge that a delegation of American Invincibles are blowing them over here with dynamite. This dynamite business is getting to be quite remarkable.

When the United States adopted the "protection" heresy our merchant marine exceeded in tonnage that of Great Britain, and the American flag was seen everywhere, even into the ends of the earth. Now the stars and stripes are a curiosity on the high seas, Great Britain has stolen the ocean trade we were too stupid to hold; her free ships do the carrying trade of the world, while the "protected" American craft are confined to the "protected" coasting trade from which competition is shut out. Until the United States abolishes its barbarous protective tariff so that the country shall have practically freedom of trade American products will be shut out of the markets of the world, and American ships and commerce off the high seas.

FRED DOUGLASS, at one time the leader of the colored people, has lost his power among the masses of his race. At one time he had the respect and the confidence of all, but his methods and plans have partaken too much of a personal nature, and when anything was done for the colored people Mr. Douglass managed to secure the most important part

of the affair—the money. In return for this he attempted to drive his race solidly in line to the polls to continue his lease of power, but they have become tired of working and voting to accomplish one man's purpose and have rebelled. Lately he has been unconsciously snubbed and he will go down to his grave with very different feelings towards him than he would had he pursued a different course. Douglass' power among his people has waned never to rise again.

The ring-master has entered the presidential circus and the race has begun. Blaine, Arthur and Edmunds are throwing the dust of past records in each other's eyes, each hoping to crowd the other out of the race. If the Chicago convention was a month farther off the prospects are that the candidates would each be a political corpse.

If the sentiments of leading men in the colored inter-state conference can be taken as a guide the colored people are not enthusiastic over the suggestion of Robert Lincoln for the position of president or vice president, as one might suppose. One of the delegates, when asked how he regarded Robert Lincoln as a republican presidential candidate, said: "Singular as it may seem, the colored people are opposed to him, the son of their deliverer. Why? Because Mr. Lincoln does not like colored people himself. Some of the delegates from Illinois know him well, and they say that he actually dislikes people of our race."

Editor Herbert, of the Trenton Sentinel, confirmed this statement. "There is nothing magnetic about Mr. Lincoln," he said. "Where he is not personally known the colored masses may hurray for him as the son of his father, but we, who do know him, are not to be taken in by my hurray business. Mr. Lincoln is not notably popular among the white people who know him."

A former invalid writes: "I was greatly reduced in health and strength, caused by bad blood. I had a dozen boils in different parts of my body, and suffered many aches and pains, while the least exertion gave me great fatigue. I took three bottles of Dr. Guy's Yellow Dock and Sarsaparilla and am completely cured. At night I enjoy refreshing, dreamless slumber, and all day I feel energetic and strong."

"He that takes a wife takes care," says Franklin; but Brown says this is wrong—that he who takes care doesn't take a wife.

What is Said About It.
There is no medicine which has been offered to the people for the last fifty years that has attained the popularity of Pond's Extract. The reason is plain. It is a medicine that relieves at once the sprains, bruises, burns, and all common ills that are sure to come which do not need a doctor, but must be attended to; and it is so simple that a child can use it. As a guarantee of its worth physicians everywhere recommend it, and in many instances, they use it in their own practice. It is an indispensable household remedy, and no family should do without it.—Indianapolis Journal.

The druggists of this city have organized a protective association, with Wm. H. Dreier as president and Wm. Meyer as vice-president and an executive committee composed of Ben Noll, Otto Klinkeburg and August Detzer. A fixed rate will be made in the future for all patent medicines and a comparative rate in the sale of prescriptions and general drugs. The association will be upheld also by the manufacturers, who refuse to sell or allow to be sold their preparations to dealers who cut on established prices.

An extraordinary reduction of telegraph rates is announced by Manager Perry of the Western Union office, to take effect to-day. The day rate to many points is also reduced from 25 to 40 per cent. This action on the part of the Western Union company, in advance of the opening of the opposition company in this city, will be a pleasant surprise to its patrons. It is not yet decided when the opposition company will open to compete for business in this city.

The Columbia City Post has a romantic story about an old man of that county. Many years ago Anthony Poiselet, a well known hunter, decided his farm to a man on the condition that he and a dog were to be provided for during their lives. The old man lived too long to wait the purchaser of the farm and he finally found himself in the poor house. On Wednesday of last week a beggar woman and a child appeared in Columbia City and she was about to be sent to this

"Withered and aged!"
Before her time, from "Malarial vapors, though she made no particular complaint, not being of the grumpy kind, yet caused me great uneasiness."

"Lost!"
"Her sallowness, and looked as fresh as a new blown daisy. Well the story is soon told. My wife to-day has gained her old time beauty with compound interest, and is now as handsome a matron (I do say so myself) as can be found in this country, which is noted for pretty women. And I have only Hop Bitters to thank for it."
"The dear creature just looked over my shoulder and says: 'I can better equal to the days of our courtship, and that reminds me there might be more pretty wives if my brother farmers would do as I have done.'"
"Hoping you may long be spared to do good I thankfully remain."
Most truly yours,

"Tried and found wanting," is a common verdict with rheumatic and neuralgic sufferers, who are taxing their patience and exhausting their purses over remedies. Athlophoros has changed this verdict to "tried and approved." L. R. Senter, Morse, Johnson Co., Kansas, writes: "A friend of mine tried Athlophoros, and it has done his rheumatism so much good that he wants more of it."

A DARING BURGLARY.

Thieves Enter the Robinson House from a Shed and Make a Big haul—A Gold Watch, \$50 and Seventy-five Railroad Tickets Missing.

Last night a bold robbery was perpetrated at the Robinson House. From a shed adjoining the hotel thieves entered the room occupied by James A. McLean, traveling ticket agent of the Nickel Plate road. Mr. McLean's pockets were emptied and seventy-five tickets on different railroads taken from him with some small change. Under his pillow was a big roll of bills which the thieves did not touch, probably in fear of waking him. From McLean's room they entered the apartment of another guest, W. J. Blair. From him they stole \$50 in gold and a lady's gold watch and chain. The theft was not discovered until this morning, and Marshal Meyer is now working on the case.

An ex-employee of the house is suspected of the robbery and it is almost certain some one who is familiar with the premises did the work. A stranger could not discover the way on to the shed, near the house, much less locate the proper rooms. There is a watchman at the Nickel Plate crossing, near the hotel, all night. He noticed nothing unusual and neither did the patrolman on that beat.

About noon Mr. McLean's pocket book containing all but one of the stolen tickets, was found west on the Nickel Plate. Mr. McLean, however, mourns the loss of \$5 and a silver watch.

Corner On

Pretty

Carpets.

Nearly two years since I sold out the dry goods part of my business to my brother, S. M. Foster, that I might devote all my time and energies to the development of my very large and rapidly growing Carpet and Furniture business. During this period the increase in our trade has been exceedingly gratifying and has fully demonstrated the wisdom of our resolution, that whatever others might do, so far as for ourselves, we would touch not, handle not, nor sell not any article of Furniture or any make of Carpets that was not the very best we could buy in point of materials and manufacture.

We were the first to bring to Fort Wayne the finer grades of Furniture and in our Carpet department we have continually sought to cultivate the masses of our people up to an appreciation of the best goods in Ingrains, Tapestries, Bodies, Velvets and Moquettes.

Not long since I returned from the great centres of Carpet manufacturing in the east, whence I had gone to perfect arrangements for controlling in Fort Wayne the choicest designs of about a dozen leading manufacturers including such concerns as Bigelow's, Bromley's, Horner's, Stinson's, Lowell's, Hartford's, Glenham's, Smith's, Dorman's, Leedom's, Gay's, Whittaker's and one or two others.

My plan has been to pick out of each of the immense lines manufactured by these concerns, ten or a dozen of their very choicest designs and bind them not to sell these particular patterns of specially great beauty, to any other Fort Wayne house.

This arrangement will enable us this spring to far excel all other houses in beautiful styles, and as all our goods will come from the above named concerns, persons buying their Carpets of us will have the best possible guarantee of getting the best goods money can buy.
